

# DFirstCoder

## 1. What is Qidou(QD):

QD is a commodity token launched by QIXIN Automotive Technology. QIXIN users can obtain QD through recharging, sharing, participating in related activities, and other means. QD can be used to pay for virtual goods related to QIXIN Automotive Technology Mall. If a user's account is suspended due to serious violations or illegal activities, QIXIN will have the right to cancel QD's related rights in the user account.

## 2. What is the use of Qidou(QD):

QD can be directly used to pay for function orders placed by QIXIN Automotive Technology. Coding the hidden function will prioritize deducting QD. The deduction ratio between QD and cash is 10:1, QD only allows consumption and deduction, and does not support withdrawal.

## 3. How to obtain Qidou(QD):

Recharge to obtain QD. Open the DFirstCoder app> tap 'Mine' page >select 'My QD'> select 'Recharge'. Then you can recharge and enjoy certain discounts as your needs.

**For more info about QD, welcome to follow us,**
